FAA  
union list  
OF  
SERIALS

INFORMATION RETRIEVAL BULLETIN

1968

DEPARTMENT OF TRANSPORTATION  
FEDERAL AVIATION ADMINISTRATION

The FAA Union List of Serials is one of the first publications produced by the systems technology developed for the information retrieval system. This technology will be used in producing many of the other information retrieval services referenced in Order 1750.7, dated 7/25/67, which provided for the design, development and management of an integrated system for the storage and retrieval of scientific, technical and administrative reference information. The Office of Management Systems trusts that the products of this system will be useful to FAA libraries and to all agency personnel.

S. E. BLUM  
Director of Management Systems

## P R E F A C E

The FAA Union List of Serials is a list of all serial publications held by the 10 FAA libraries. Serial publications include magazines, newspapers, annuals, and loose-leaf services. The union list is intended as a tool for reference librarians in locating a serial issue requested by a library user, for library patrons in determining whether an FAA library has a given title, and for agency management in evaluating the collections of the FAA libraries.

The union list is an author/title listing, that is, the serial publications are listed either under title or under author/title. If a publication is listed under title, and if the editors of the union list were aware of a Government agency, society or institution which sponsored the publication, that corporate body will appear under the title, and a cross-reference will appear under the name of the corporate body referring the reader to the title. If the publication is entered under author/title, and if the title is distinctive, a cross-reference will appear under the title, referring the reader to the author/title entry. The following are examples of the various types of entries:

JOURNAL OF AIR LAW AND COMMERCE (title entry)

JOURNAL OF AIRCRAFT  
AMERICAN INSTITUTE OF AERONAUTICS AND ASTRONAUTICS  
(title entry with corporate author appearing below)

NATIONAL FIRE PROTECTION ASSOCIATION  
NATIONAL FIRE CODES  
(author/title entry)

The only other required elements in a citation are a designation for each library holding that title and a statement of the extent of holdings. The designations for the libraries consist of the two letter routing symbol for Washington headquarters, the centers and regions, for example, HQ, EA, NA, except for the Medical Library at the Aeronautical Center and the Law Library in Washington, which are AC/M and HQ/L because these libraries maintain separate circulation systems. A list of the precise routing symbols and addresses for all libraries follows this preface.

Other items of information which may appear in a citation are changes in title and miscellaneous bibliographical notes regarding volume numbering, etc. When this type of information appears it will follow the title and author statements and precede the holdings statements. If a publication has changed title, it will appear in the union list under all the various forms of the title, with holdings under each form only for the period during which that specific form of title was in existence. Title changes are indicated by the following phrases: Continued by, Continues, Superseded by, Supersedes, Merged with, Absorbed. Example:

INTERNATIONAL INDEX  
CONTINUED BY SOCIAL SCIENCES AND HUMANITIES INDEX  
HQ V. 11-18 1946-65

SOCIAL SCIENCES AND HUMANITIES INDEX  
CONTINUES INTERNATIONAL INDEX  
HQ V. 19-DATE 1965-DATE

Each of the 10 FAA libraries forwarded data on their serial collections to the Office of Management Systems (MS-110) in Washington. The Office of Management Systems standardized the titles submitted by the libraries, edited the data for consistency of form, and coordinated the ADP processing. Since this is the first time that the list has been compiled, there have been some difficulties regarding selection of titles appropriate for inclusion and some simple oversights; the result has been that occasionally titles appear with holdings for only one or two libraries when several additional libraries hold the title. It is planned that this union list will be an annual publication and that such inaccuracies will be corrected in the next edition.
